

SERAFINA WALL

Serafina Wall's trapezoid shape and split face on two sides makes it a multifaceted solution for many hardscape applications. From straight and curved walls, single or two-sided borders for your garden, Serafina is a great option where walls less than three feet high are required. Available in colors for every home.

NOTE: All walls over 2' in height or as required by local code should be designed by a licensed professional engineer. All measurements are nominal. Variance in square footage or linear footage coverage can be up to 5% depending on joint width. The possible occurrence of efflorescence does not affect the structural integrity of the product. Efflorescence is a normal occurrence in concrete products and will dissipate with normal weathering. The use of concrete as a base or setting bed may increase the possibility of efflorescence.
